

*Happy Birthday!*

Happy Birthday to the one who stole my heart from day one! With each passing year together, our love grows stronger and more profound. Today is a celebration not just of your birth but of everything we have built together as a couple –

next one.

## **Make Birthdays More Memorable**

You bring so much joy and happiness into my world, and I am grateful every day for having you by my side. May this year be filled with endless laughter, unforgettable memories, and all the love that your heart desires.
